A89	It is fascinating & potentially useful, but a very scary concept if used the wrong way.
A90	AI is an ok system to have I guess I just don't use it at the moment
A91	Great technology better for the future of us and the rest of the world
A92	I thinks it's very helpful, at times it can kind of be invasive
A93	I don't like the idea of AI taking over humans
A94	I feel uneasy about AI. I am not sure if it is a good thing or a bad thing.
A95	I don't know what I think about this one but I'm definitely thinking about this and I'm going to try to make it work
A96	I'm not aware of AI so I can not answer I can not answer this question
A97	I think AI has its benefits and downfalls. When it's riding writers of jobs, I'm against it.
A98	There will be pros and cons with it. It will definitely make certain things easier.
A99	I personally don't feel bad AI it's going to beneficial in the long run
A100	Love it. It's going to make life so much easier
A101	I don't know much about it but interesting in learning about it

#	ANSWERS
A102	It seems very interesting and I might be interested
A103	Unsure about how much it will help people in the long run
A104	I feel that it is Innovative and creative and it can make our lives easy
A105	Nothing really don't know much about it need to learn more about it I guess it's the new thing
A106	An common quality variety of options for tech support
A107	I really think AI can bring a great use case for many professions.
A108	I'm not sure about AI. All I know is that I don't know what it is
A109	I like the idea of it but it scares me. I feel like it will help in a lot of different ways.
A110	I have concerns about privacy and data security
A111	It's very very helpful yet at the same time very scary.
A112	scared of ai because humans will make it too powerful and weponize it
A113	The first time I was on a phone call Me back to the grocery store and
A114	Positive and hope that it becomes more universal.
A115	AI i like depending on what aspect, some of it is useful
A11	I think it has benefits, as well, I have concerns.

#	ANSWERS
6	
A117	I love it, I like how it is personally ai is just great
A118	I feel great about AI it's a great company . And very helpful
A119	It terrifys me if I'm going to be truthful. I think it will be the death of the human race.
A120	It's us ok do not know much about it but heard of it
A121	I really do not like AI as I'm worried it's able to do too many things better than msn can and there will be job loses.
A122	Positive feelings in general. That's my overall feelings
A123	It's amazing you can do so many things while it being useful and responsive
A124	Irritating. Bring back a regular search bar. I would have have a person to speak to
A125	Like it a lot and will use it for sakes now and in the future
A126	I don't trust AI. I feel it will eliminate jobs.
A127	I haven't had much experience with it but I can see the benefits but also the dislike that people have for it.
A128	It is very useful to today's modern world, with little concerns. The only concern is its smartness to be dangerous, other than that it helps everyone in the world.
A129	No strong feelings at this present time, in a wait and see mode.
A130	I like it, even as I have questions about it. We need to figure out how to use it in an ethical way in various settings.

#	ANSWERS
A131	I love it it helps us greatly in our everyday lives
A132	I don't even know what that is! I have never heard of it before!
A133	I feel like AI is an innovative tool that will increase productivity and streamline workflow
A134	I'm still suspicious about it. I feel like it's a technology that has been known about for a few decades. Consider The Transformers. That to me is what AI is. And soon to come.
A135	How to feel about AL? AI is interesting and curiously technical.
A136	It stands for artificial intelligence and technology
A137	Good because it's the Best for me and my family love it
A138	I am torn. I don't think that it is good for our youth to rely on it. But I also feel that technological advancement is aided with AI.
A139	It is a very good thing that was made for the economy
A140	Not sure I have mixed feelings about it it's good and bad
A141	Will have a positive impact on society in the future
A142	has good and bad things to say about it and is leasing the way in technology
A143	It's okay it could be better since people are getting smarter
A144	It's the future industry to rule all industries for mankind.
A14	It should be monitored but can be useful. AI can help people in many ways but could be dangerous if not properly handled.

#	ANSWERS
5	
A146	I am not sure. I have not heard enough about it.
A147	I like it and I believe it will advance even fir
A148	I love AI it's has upgraded a lot of systems which has made a lot of things easier than they were before
A149	It's okay I guess like the voice ones okay like Google
A150	It's going to be very useful and helpful and completely change the computer industry
A151	I think it's helpful but a little creepy. I feel like things like Alexa spy on you.
A152	Both excited and apprehensive. I can see the benefits it could bring to every day life but I also see the very real issues we could end up with, for example data and privacy concerns or AI doing what it wants or teaching itself without human knowledge of it doing so.
A153	I am totally undecided about AI. I guess it is the fire of social media.
A154	It has its uses but it must be closely monitored
A155	I'm beginning to like it. I was a little skeptical about but it's actually awesome
A156	I feel we are on there brink of AGI and incredible abundance
A157	In the middle. Kind of concerned because of how life like it is
A158	I don't know too much about AI, but I am willing to learn more about it and how it works.
A159	very cautious about accepting this technology

#	ANSWERS
A160	Not good it's not how people should learn it makes people lazy and not work hard
A161	It is going to take over all of the jobs and unemployment will continue to rise.
A162	It's okay I like it quite a bit it can be very helpful
A163	I feel like AI is the future and it can soon take over the world and take the jobs of many citizens.
A164	It's going to make everyone's life so much easier and change the computer industry
A165	It's actually quite scary and I don't think the world is ready for it
A166	Feel good about it. It can enhance our experience to all kinds of technology
A167	I think it's helpful but also intrusive. I think there are strengths and also weaknesses.
A168	advanced technology quick solutions, combination of algorithms proposed with the purpose of creating machines tht have the same capabilities as humans
A169	I don't know what to think about al. It a game change
A170	I'm cautious and optimistic at the same time.
A171	Don't care to much but would like to learn about it
A172	I feel like I'm kinda scared when we allow it take over the world
A173	Can be useful, but can also be dangerous. It can be used to build dat models and code%3B but can also be used for deep fakes and fraudulent activity
A17	I appreciate the concept of the content provided by the company services and services

#	ANSWERS
4	
A175	I don't really understand how AI works so I'm confused about it
A176	I dont see how it is really going to help us all..
A177	I think it will be good thing. That it will have both pros and cons so bad points just have to correct or leave out.
A178	Ai is a little creepy. And I don't really like it.
A179	It's ok I guess . I'm really not sure. We will see what happens
A180	I don't trust it. I don't know enough about it or know how to control it.
A181	I absolutely abhor the idea of ai and all it stands for. It should have never been created and the only people it's helping is the people getting rich off of it
A182	I think caution should be taken in its development
A183	No real comments this sure has been a lot of hype about it I'm not quite sure if it's going to be a good or bad in regards to Medicine I think it will be helpful
A184	I don't like it and don't know to much about it
A185	It is ok. I like the ability for it to answer questions based on previous data. I didn't like the future that might happen relating to ai
A186	I'm not that thrilled with AI I mean it can help us in many ways but I fear it's taken over. Having people do certain things
A187	Worried because it's taking away jobs and it's taking away human creativity.
A188	I think it's a good app that helps everyone with something.

| #	ANSWERS
A189	It ok just don't trust it like everyone else but we will see
A190	AI is helpful but be careful when you use it.
A191	It's useful when used correctly. Sometimes It's better to do it manually without the help of smart features.
A192	Think it's helpful n easy to use, accessible n lots of ways to use
A193	I think it can be great but I have a lot of concerns. It is already being misused.
A194	It seems cool to have a bit of help of someone who isn't real yet they know a lot since it's a robot
A195	I really think it's great and very innovative
A196	I honestly done understand it all. I don't think it's a good thing!
A197	Can be helpful at times but other times misleading.
A198	It's new, I'm not too sure about AI or what it can do yet
A199	I'm very open to AI, I think it will be interesting to watch how it matures over time
A200	It's useful and entertaining I think. It's fun to use them.

A10	I really don't know but I will do research first

#	ANSWERS
2	
A103	I don't have any concerns about AI.
A104	I have no specific concerns about AI
A105	I really don't know much about to have any concerns
A106	The company brand terms of service
A107	Peoples' fears and concerns that are not true.
A108	I'm not sure about ai at this moment
A109	Hacking into my accounts such as social media or even my bank/money apps.
A110	data security, bias, privacy issues
A111	That it will take over the world and we won't be able to stop it.
A112	it being weponised for military use
A113	The medical records are on my phone
A114	Government restrictions and Google manipulation of results.
A115	Ai will take over, it shouldnot be used in everything
A116	It will make people lazy and also people misusing AI.

#	ANSWERS
A117	I don't have any concerns about it, I be using it myseld
A118	Nothing really concerns me. About Al it's greay so far
A119	I'm afraid it will realize what a mess we are and decide that we don't deserve to live. That is I am afraid he will tell the big main computer to fire " the bomb" and then we are all finished
A120	None at all not to much concerns
A121	Worried AI will take over identities
A122	No concerns about AI. To be very honest
A123	Oh how it functions faster that most things
A124	Getting personal information. Getting hacked
A125	Take over for humans not at all going forward
A126	It will eliminate jobs from people.
A127	Accuracy and safety would be my greatest concern.
A128	It can be dangerous if not restricted.
A129	used to proliferate incorrect information
A130	How it will impact students' learning. Will they stop critical thinking?
A13	Because it more advance and top technology and we can learn and do learn alot from AI and help us alot

#	ANSWERS
1	
A132	I have no concerns because I don't know what AI is!
A133	Privacy and ownership concerns
A134	Like my previous written answer things like the transformers walking amongst us.
A135	What are the greatest concerns? It would be hacks and other malfunctions.
A136	It might be too overwhelming and too high in frequency
A137	Talking over the world because it really how I feel
A138	That the children of the world will use it in lieu of their own intelligence.
A139	That they are to intelligent to
A140	Don't have a voice because everything will be divital
A141	Don't really have any concerns
A142	that it will invade my privacy
A143	It will take over the world and it will become to smart to turn off
A144	Big tech monopolies, governmental invasion of privacy, and the loss of so many jobs in the economy.
A145	It can be used to falsify information and can directly harm humans.

#	ANSWERS
A146	I do not know enough about it yet.
A147	I'm not really concerned by much of it even when you all the security scares
A148	I honestly have no concerns with AI I feel like it's making a lot of things easier for people
A149	I don't trust robots all that much
A150	The some people might use it to commit crimes
A151	Spyware and sometimes it is not accurate
